RISK AND VULNERABILITY ASSESSMENT CHECKLIST

Security Cameras

	Yes	No	N/A	Comments
Do security cameras monitor the interior of the facility?				
Do security cameras monitor the exterior of the facility?				
Are the security cameras monitored 24 hours per day?				
Is the security camera system recorded?				
Are video recordings archived for a minimum of sixty days?				
Are elevators equipped with audio or video security systems?				
Are restricted or secure passageways monitored by security cameras?	. 🗆			
Are stairways/stairwells monitored by security cameras?				
				new make mene energy (1960 TD) (1960 TO)

Doors/Windows

	Yes	No	N/A	Comments
Are exterior doors secured with a quality doorframe, strike, solid wood core or metal door and a quality deadbolt lock or electronic access locks?				
Are sensitive area doors secured with a quality doorframe, strike, solid wood core or metal door and a quality deadbolt lock or electronic access locks?				
Are all hinge pins internally located, welded or otherwise treated to prevent easy removal?				
Do doors have automatic closing and locking hardware?				
If equipped with exterior glass doors, are glass breakage sensors installed?				

Are windows on the ground floor protected by ballistic protection?		
Are basement or crawl space access doors integrated into the intrusion alarm system?		
Are exterior door bolts protected or constructed so that they cannot be cut?		
Are basement or crawl space access doors secured?		
Are all roof access points secured?		

Access Control

	Yes	No	N/A	Comments
Are public entrances/exits monitored by a receptionist, security personnel or security camera?				
Is there a separate entrance into the facility for employees?				
Is there a process to identify employees entering the facility?				
If employee ID cards are issued, are employees required to display them on their person while inside the facility?				
Are there varying levels of access within the facility? If so, is employee access restricted to only those areas (and time zones) necessary for their work?				
Are there public security screening stations (i.e. magnetometers, wands, etc.) at the entrance of the facility to prevent weapons or hazardous devices from entering the building?				
Are facility employees allowed to bypass the public security screening stations (i.e. magnetometers, wands, etc.) at the entrance of the facility?				
Is access to all HVAC mechanical/electrical rooms and computer closets restricted only to personnel requiring needed access?				

Are customer service areas located on the ground lev floor and customer access restricted by means of locks, electronic access control, or escorts?	el _						
Does the facility have an access control system installed?							
Is one individual designated with key/access card control and issuance responsibility?							
Must duplication of keys be approved by the key/card control officer?							
Are keys physically inventoried annually and locks replaced if keys are lost?							
Is there a policy /directive concerning how and when identification badges must be worn?							
Is there a procedure concerning the reporting of lost of stolen identification badges?	r						
Visitors							
	Yes	No	N/A	Comments			
Is a policy in place requiring visitors verified prior to issuance of a visitor pass?	Yes	No	N/A	Comments

Facility Parking

	T	T = =	T ==::	
	Yes	No	N/A	Comments
Are vehicles restricted to no closer than 150 feet of the facility?				
Is under ground parking (under facility) avoided or restricted only to employees?				
Is there a means for rejected vehicles to be turned around without allowing them access to the facility grounds?				
Is the employee parking controlled by decal or other verification system?				
Are designated parking spaces assigned by <i>number</i> rather than by name or title?				н
Is there separate visitor parking?				
Is entry to and exit from parking areas controlled?				
Are parking areas monitored by security cameras?				
Are frequent inspections made of parking area(s) and vehicle(s) not guarded or monitored by security cameras?				9
Is the employee parking area protected by a fence or barrier?				
If automated gates are used, are there measures to control "tailgate entry?"				
Is the employee parking area closed or locked during non-business hours?				
Are signs posted advising of parking restriction?				
Is there good natural surveillance from the facility interior to the parking area(s)?				

Lighting

	1	122					
Y 4 11 12 0	Yes	No	N/A	Comments			
Is there emergency lighting?							
Are lighting controls inaccessible to the public?							
Is the entire perimeter lighted?							
Is exterior area lighting sufficient for the facility?							
Are light fixtures suitable for outside use (<u>i.e.</u> , weather and tamper-resistant)?							
Is illumination even and consistent?							
Do any exterior or perimeter lights have an auxiliary power source?							
Landscaping & Other Exterior Considerations							
	Yes	No	N/A	Comments			
Do landscape features provide places for potential concealment?							
Does the facility have perimeter fencing?							
Is the fencing in good repair?							
Are all gates secured on a regular basis?							
Is the fence line inspected for signs of tampering, needed repairs and potential climbing instruments?							
Are shrubs planted near the fencing of a thorny variety?							
Does perimeter fencing maintain a 20/30' standoff?							
Are shrubs maintained to less than three feet in height?							
Are tree/bush canopies raised to a height of at least six feet?				7			
Are chicanes, barriers and/or other traffic calming devices in place to deter ramming of the facility?							

			· · · · · · · · · · · · · · · · · · ·					
Are the grounds clear of loose materials such as bricks, stones or other materials, which could be used by intruders as weapons, missiles or tools?								
Are trash receptacles positioned against the facility or near sensitive locations?								
Are trash receptacles blast resistant?								
Are the points where utilities enter the facility exposed?								
Are utilities secured to avoid tampering?								
Mail & Deliveries								
Are all deliveries made at a location separate from	Yes	No	N/A	Comments				
the facility?		Ш	Ц					
Are deliveries to the facility required to be made between designated times?								
Are delivery manifests checked and confirmed prior to allowing vehicular access?								
Are all mail deliveries received at a specific point in or at the facility?								
Have mailroom employees received training on the procedures if a suspicious article is located?								
Is signage posted that indicates packages, parcels etc. may be inspected prior to entry?								
Does the mailroom have protective equipment to be used during handling?								
Is there a procedure for the handling of a suspicious article?				3				
Does the procedure clearly require evacuation of the mailroom in the event of discovery of a suspicious item?								
Does the procedure prohibit additional personnel from handling the article?				¥				

Does the procedure require the building's HVAC to be turned off if possible?				
Does the procedure require the immediate notification of law-enforcement?				
Have mailroom employees had training on mail / package screening techniques?				
Security Personnel				
	Yes	No	N/A	Comments
Does the facility employ security personnel?				
Are security personnel proprietary or contract?				
Are security personnel cleared with a background investigation prior to allowing them on facility property?				
Have all security personnel received certification from the Department of Criminal Justice Services?				
Does the facility have a security director or other person responsible for security issues?				
Is there a policy establishing who is responsible for declaring an emergency both during working hours and after hours?				# A 9.50
Are there procedures that detail security personnel with their role and responsibilities?				
Are security personnel armed?				
Are there "Use of Force" continuum procedures in place?				
Can security personnel readily contact someone for emergency assistance?				
Are the locations of utilities known to security or supervisory personnel?				
Is there more than one communications system used exclusively by security personnel?				
Are routine security checks of the facility required and documented?				9

Are Capitol Police involved in the development of security plans and/or critical incident procedures?							
Alarm / Fire Detection Systems							
	Yes	No	N/A	Comments			
Is the fire alarm system integrated with the access control system?							
Are all false activations examined by the facility for causative factors?							
Is there a minimum 48 hour back-up battery emergency power source for all alarms?							
Does the emergency power source activate automatically?							
Are security components backed up by one or more emergency power sources?							
Are safes and vaults integrated into the alarm system?							
Have facility personnel received proper training in the use of fire extinguishers or fire hoses?							
If the security alarm is audible, does the alarm system intone differently than the fire alarm?							
Are employees trained in how to respond to the various alarms?							
Are important telephone numbers, special admittance permissions, names of terminated employees and other significant information made available daily to security personnel?							
Does an alarm system exist that alerts in cases of extreme temperature changes within the building?							
Medical & Medical Emergencies							
	Yes	No	N/A	Comments			
Is first aid equipment available throughout the facility?							

Is there policy giving someone the responsibility of meeting the rescue squad and leading them to the individual?							
Are facility personnel trained in the use of first aid equipment?							
Other							
	Yes	No	N/A	Comments			
Are any sensitive documents or systems provided	105	110	1 1/12				
with additional security?							
Are elevators programmed to bypass certain floors?							
Are there any public waiting rooms?							
Do trash receptacles allow easy concealment of hazardous devices?				2			
Is a large amount of cash maintained in the facility overnight or on weekends?							
Is there an adequate safe, vault or strongbox within the facility?							
Are safes weighing less than 750 pounds securely fastened to the floor, wall, or set in concrete?							
Does the facility have a public address system?							
Preparedness / Crisis Planning Yes No N/A Comments							
Dear the facility have an amazanay action plan?	105	110	11/21	Comments			
Does the facility have an emergency action plan?							
Is there a senior management level person designated with responsibility to insure preparedness and coordination?							
Have a copy of the plans been made available to local law enforcement tactical units and/or emergency services?				9			

Is the authority and chain or command clearly defined and in the emergency action plan?				
Does the SOP establish a procedure for handling medical emergencies involving the general public?				
Does the plan include a facility blueprint/floor plan?				
Is there a designated employee to coordinate any emergency response in their assigned area?				
In the event of an evacuation, does the plan include accountability by a Floor Captain of all personnel?				
Have all employees received training in their appropriate response in the event of a critical incident?				
Are assembly areas different for fire incidents rather than for terrorist or other violent incidents?				
Has the emergency action plan taken into account emergency communication needs?				
If applicable, is there a hazardous material release plan?				
Does the emergency action plan detail the handling of bomb threats?				
Policy Considerations				
Miscellaneous	Yes	No	N/A	Comments
Does the facility have an Internet web site?				
Does the web site divulge security or facility information that could be exploited or misused?				
Is computer/ network data backed up and stored off- site daily?				
Is proprietary information stored off-site?				
Is there a records recovery plan to insure continuity of services?				
Does the facility have a current Continuity of Operations Plan (COOP)?				p.

Is there a plan to restore critical functions quickly?				
Are there plans for temporary relocation and business resumption in the event of a critical incident?				
Have exercises been conducted to test the plans?				
Are confidential documents shredded before being discarded?				
If the facility closes, is there a procedure to ensure the facility is vacant prior to leaving?				
Are communications between security personnel adequate?				
Are public restrooms routinely inspected?				
Are safe combinations changed when personnel terminate employment?				
Is an armed escort(s) used to make bank deposits?				
Workplace Violence	Yes	No	N/A	Comments

Is there policy which defines and addresses workplace violence? Is there a policy that identifies different types of threats? Is there periodic training on workplace violence? Is there a policy and procedure on active shooter scenarios? Is there a policy and procedure on hostage situation scenarios?				

Is there a policy to notify security and human resources?				
Building Evacuation	Yes	No	N/A	Comments
Is there a policy and plan to evacuate under the following listed conditions?				
1.Fire				
2. Threats of any kind (via telephone, in person, email or mail).				
3. Suspicious packages				
4. Incidents of workplace violence / armed intruder.				
5. Severe weather.				
6. Other incidents which could reasonably cause harm to the structure or its occupants.				
Are periodic fire and evacuation drills held?				
Is there policy on designated evacuation routes (these should also be posted in elevator lobbies).				
Is there a designated evacuation point out of the "Danger Zone", with a building or other protective structure separating evacuees from the threat?				
Is there a preferred method for reporting fires (utilize pull-stations or call the Fire Department)?				
Do employees know the location of fire extinguishers in the building?				
Is there policy in place not to use elevators during an evacuation?				
In buildings housing multiple agencies, does each agency evacuation plan match the building evacuation plan?				
Are shelter-in-place procedures planned as a potential option for emergency situations?				

Bomb Threat	Yes	No	N/A	Comments
Is there policy that designates who will decide on evacuation or shelter in place?				
Is there policy that permits non-evacuation as one of the response criteria?				
Is there a proper evaluation protocol to determine response?				
Is there a requirement that employees check their assigned work area?				
Is there a search of the evacuation area prior to use to ensure the area is safe?				
Is there a restriction of electronic transmitting device usage?				-
Is there policy on notifying law enforcement and management?				
Is there a policy instructing personnel not to use the telephone after receiving the call?				
Is there a bomb threat check list?				
Is there policy on not pulling the fire alarm?				
Employees and Contractors	Yes	No	N/A	Comments
Are employees and contractors provided training on security related policies and or procedures?				
Is there a policy requiring criminal history background checks for all employees and contractors working in critical infrastructure, with sensitive systems, or sensitive security information? Does the policy have standard adjudication criteria?				
Is there a policy requiring a criminal history background check for all contract employees working after hours?				,
